## **Enroll to View : Previously recorded webinar on accommodations training for the GED® test by David Haugen**

*The following was sent to KYAE Listserv.*

### **Advocating for ABE Learners with Disabilities: A How-To Guide for Educators and Disability Service Professionals**

KYAE is offering an opportunity to view a previously recorded webinar with David Haugen. David formerly worked at Pearson VUE/GED Testing Service® LLC in the area of testing accommodations.

This 90-minute session will focus on the accommodations process – from start to finish – so that advocates and adult educators may better interpret the documentation guidelines, request forms and review the process for the GED® test.

The webinar will provide many screenshots of sample requests/documentation examples and outlines what exactly is needed for a request to be considered complete (i.e., rationale, functional limitations). The session explores, in-depth, how the computer-based testing delivery and related process changes may influence and shift how educational programs can best support learners with disabilities. The session will conclude with a broader overview of ADA legislation and a consideration of additional measures to assist/advocate for learners beyond applying for accommodations.

While you may watch this webinar at your leisure, the number of available seats is limited. To register, please go [here](#) and select course KYAE156. If you have any questions or concerns, please contact Donna Potter ([donna.potter@ky.gov](mailto:donna.potter@ky.gov)) and/or Elizabeth Arauz ([elizabeth.arauz@ky.gov](mailto:elizabeth.arauz@ky.gov)).
